

Merry Christmas and A Happy New Year to all of our OES Sisters and Brothers across the great state of Kansas, you are the ones that make the STARS shine brighter, with your love and friendship.

To OES Friends at Christmas

If you could come across the miles to be with us  
At this wondrous Christmas season of the year,  
You would hear the bells ring out across the valley,  
Your heart would fill with joyful Yuletide cheer.

The snow-clad hills are lovely in the country,  
The night sky filled with brightly twinkling stars,  
The pond stands white and still against the north wind  
And friendly cedars spread their sheltering arms,

Our hearts are filled with tender love at Christmas  
As we gather in the church upon the hill,  
The organ sounds and children's voices singing,  
Tell us of peace on earth, to men good will.

Our love goes out to you dear OES friends at Christmas--  
We see your face within the candle's glow,  
We wish you joy and peace in all your living  
And may the bond of friendship stronger grow
